The assignment of creating music videos based on Lithuanian folk songs

S **SCIENCE**: analysing symbolism and metaphors of folk songs and music and researching contexts

T **TECHNOLOGIES**: pupils learn to use filming equipment and software for animation and editing

STUDENT REFLECTION "it opens up more opportunities not only in music but also in projects on other subjects"

E **ENGINEERING**: the creation process is based on engineering research: analysis, planning, implementation, improvement, reflection and dissemination of results

A **ARTS**: the synthesis of music, applied arts and cinematography

"it was rewarding to see the final result"

M **MATHEMATICS**: figuring out the time frame in a montage

The goal of this project is to release students' creative powers and introduce foreign audiences to Lithuanian folk music
